

# Drinking Water Quality – Critical Customer Registration

Under NSW Health Guidelines, Council must notify vulnerable customers of any event that could result in the delivery of potentially unsafe drinking water.

Council maintains a register of high risk stakeholders (eg: in-house dialysis patients, immuno-compromised) who would be significantly affected by a water quality failure. These registered customers are notified as a matter of priority in the event of a potential water quality issue, such as a Boil Water Alert.

If you wish to be included on the Critical Customer Register, please complete the below and return to Council via email or post (details above). This information will only be used during a drinking water quality incident.

## Registration

### 1. APPLICANT DETAILS

Contact Person (name)	Business name (if applicable)
<input type="text"/>	<input type="text"/>
Postal address	Email
<input type="text"/>	<input type="text"/>
